

SRUSHTI MESHRAM

DevOps Engineer | 4 Years Experience | Immediate Joiner
srushtim61@gmail.com | +91 9420019011 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven DevOps Engineer with 4 years of experience designing, automating, and maintaining scalable cloud infrastructure on AWS. Proven expertise in CI/CD pipeline development, container orchestration with Kubernetes and Docker, and Infrastructure as Code using Terraform and Ansible. Delivered a 40% reduction in deployment time while building highly available, cloud-native systems with end-to-end monitoring via Prometheus and Grafana. Skilled in GitOps-based delivery, release engineering, and cross-functional collaboration to deliver reliable, high-performing applications in production cloud environments.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, VPC, S3, IAM, RDS, EKS, CloudWatch)

CI/CD & Automation: Jenkins, GitHub Actions, ArgoCD, Maven, Nexus, SonarQube

Containers & Orchestration: Docker, Kubernetes (EKS, Helm, Kustomize, HPA, RBAC)

IaC & Configuration: Terraform, Ansible, Ansible Vault

Monitoring & Observability: Prometheus, Grafana, CloudWatch

Security: Trivy, OWASP, Terrascan, SonarQube

Scripting & Version Control: Bash/Shell Scripting, Linux, Git, GitHub

PROFESSIONAL EXPERIENCE

DevOps Engineer Dec 2021 – Mar 2026

Capgemini India | Client: Synchrony Financial, USA

Digital Banking Platform – End-to-End DevOps: CI/CD, Cloud Infrastructure & Kubernetes Microservices on AWS

Tools: Terraform, Jenkins, Docker, Kubernetes (EKS), Helm, ArgoCD, Ansible, Prometheus, Grafana, SonarQube, Trivy, Git, AWS (EC2, VPC, S3, IAM)

CI/CD & Automation

- Designed and implemented end-to-end CI/CD pipelines using Jenkins, **reducing deployment time by 40%** and enabling faster, reliable releases across multiple environments.
- Implemented **Helm charts and ArgoCD** for **GitOps-based continuous delivery**, enabling declarative, version-controlled deployments across Kubernetes clusters.
- Integrated **SonarQube static code analysis into CI pipelines** to enforce quality gates before every production deployment, reducing code defect escape rate.

Cloud Infrastructure & IaC (AWS)

- Automated AWS infrastructure provisioning using Terraform — **VPC, EC2, S3 and IAM** — eliminating manual configuration and improving deployment consistency across environments.
- Managed Amazon EKS clusters and deployed containerized microservices across multiple namespaces, implementing namespace-level isolation.
- Secured sensitive credentials using **Ansible Vault managed artifact storage in AWS S3** with versioning and **cross-region replication** for high availability.

Containers & Kubernetes

- Built and maintained Docker images with **Trivy security scanning** integrated pre-deployment; deployed containerized workloads to AWS EKS using Ansible, Helm, and ArgoCD.

- Configured **Horizontal Pod Autoscaler** (HPA) to dynamically scale microservices based on CPU/memory demand, ensuring optimal performance and cost efficiency.
- Established RBAC policies, namespaces, and resource quotas to enforce access control and workload isolation in multi-team Kubernetes environments.

Monitoring, Reliability & Operations

- Configured Prometheus and Grafana monitoring with custom dashboards and proactive alert rules across application and cluster levels, **enabling rapid incident detection** and improved platform reliability.
- Performed root cause analysis and performance optimization to maintain high availability and minimize production downtime; **recognized by client stakeholders** for swift handling of critical production outages.
- Authored SOPs and operational documentation for recurring incidents and deployment processes, reducing team onboarding time and improving operational consistency.
- Collaborated with development, QA, and infrastructure teams to deliver scalable, resilient, and automated cloud-native solutions aligned with business requirements.

CERTIFICATIONS

AWS Certified Developer – Associate Issued 2022

HashiCorp Terraform Associate In Progress

EDUCATION

B.E. in Information Technology Graduated 2020

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU), Nagpur

Score: 62.84%
